### Notes from Miss Poux:

I would like to thank Mrs. Dahling, Mrs. Evans, Mrs. Hess, Mrs. Grome, Mrs. Sullivan and Mrs. George for helping us learn more about students with Cognitive Delays and helping us to understand that we are all alike in many ways. The week before Halloween we will be doing an activity called Pumpkin Math where we will use pumpkins to practice our math skills. If anyone would like to donate a medium-sized pumpkin, please email or send a note and let me know. I look forward to meeting many of you at conferences this week. Attached to your conference sheet was a half green sheet. Please send this back prior to your conference night. Have a great week!

### Star of the Week:

There will be no Star this week due to the short week.
