Be it known to all who enter here that Christ is the reason for this school. He is the unseen but ever present teacher in its classes. He is the model of its faculty and the inspiration of its students.

Dear Parents:

As I am writing this letter, it is absolutely beautiful outside and close to 50 degrees. It is ironic that I am informing you of our snow day policy. As always, in the case of inclement weather which forces a delay or a school closing, we will always follow Milford Exempted Village Schools. Additionally, you will be notified via cNotify's e-mail and phone calling program.

What is different this year is that we once again have five snow days as permitted by the state, before we are required to make any additional days up.

These next several weeks are going to be packed full of action and events. From in-house registration beginning, to the Science Fair, midterms, and parent – teacher conferences, our parents and students will certainly be busy. And that only gets us to the last week of January.

Then we have our much anticipated Open House on January 29 followed by a week – long celebration of Catholic Schools Week ending with the ever appropriate all – school mass for both campuses. Students, teachers, pastors and parents come together to pray, to worship, to give praise, and to thank the good Lord for our wonderful SASEAS community.

How fortunate we are to have each other.

Peace and all good.

Science Fair Judges Needed

MARK YOUR CALENDAR!

St. Andrew Campus Science Fair
Friday, January 20, 2012

The 7th and 8th grade students at St. Andrew Campus are busy preparing for the upcoming science fair and exposition scheduled for Friday, January 20, 2012 in the St. Andrew gym.

Mrs. Melissa Doll, science teacher, is expecting 125 projects for this exposition and will need volunteers to participate as science fair judges. For scheduling purposes, judging will take place in the morning from 7:45am - 10:30am. Judges should have a background in math, science or engineering and should be familiar with the scientific method. Instructions and blank scoring sheets will be available prior to the competition. Judging results do not affect the students' grades, but will determine which students are invited to compete at the regional fair at UC.

It is quite inspiring to view all of the diverse projects and help our young students get excited about science! If you or someone you know would like to judge, please contact Amy Schroeder at amyts@cinci.rr.com or 831-4136.

Families and friends are invited to view the projects on the evening of the science fair. More details will be available at a later date.
